Skills

I'm punctual, teachable, and ready to hop into whatever tasks need to be done. I'm able to edit, direct, and create graphics. I can tell your story with video.

I love being involved in video production from acting, to producing and editing the final touches, to make the video amazing. I'm seeking for as much experience as I can in the field and to expand on my current skill set.

Experience

I've done gimbal camera work for football games, swim meets, and church services. I recorded for Riverview Highlands, filming their golf outing event. Along with recording concerts in the park. I was the face of the student newscast at Carlson HS. I was the team leader of Carlson's live streaming crew. We recorded Senior honors day for Riverview HS and Allen Park HS. I've directed/live streamed Carlson's drama production and Riverview's Drama club, cabaret. For two years I've been in Digital Media Arts class, taught by Patrick Morrow. That class has given me knowledge in camera work, editing, and time management

Carlson High School/ Cinematographer/Director/Producer

I directed/live streamed many football games and swim meets with my live streaming crew. I worked as a cameraman, then started to direct. Soon I had my own crew. I've produced many things for the school including the student news, a freshman orientation video, and live streamed their senior honors day.

Grace Church/ Cinematographer

I used a gimbal to record church services and I occasionally directed their church services.

City of Riverview/ Cinematographer

I'm interning for the city recording concerts in the park

Riverview Highlands/ Cinematographer

I recorded two golf outings and an old car show.

Riverview High School/ Director

I directed the drama club's cabaret and directed/live streamed their senior honors day.

Allen park / Director

I managed my live streaming crew as I directed the school's senior honors night live streaming event.
